

CELEBRATE YOUR LIBRARY!

Dear Library Friend,

The Galax-Carroll Regional Library needs your help. Your Galax Public Library has turned 16 years old. Like any teenager, growing pains occur.

As you may know, programs and services for the Galax and Carroll County communities have expanded:

- eBooks
- downloadable audiobooks
- teen book clubs
- coloring for adults
- local newspapers online
- title requests for purchase
- movie showings
- jigsaw puzzles
- basic computer training
- notary service
- creative writing classes
- early literacy stations for kids
- access to digital libraries
- foreign language tutorials
- genealogy databases

All these – and more - are free of charge for the public.

However, the building itself has started showing signs of wear. Long-term resources are needed to ensure that your library remains in good shape, from replacing HVAC units as they age out to replacing windows and roofing as these, too, need attention to perform more efficiently for your comfort and benefit when using your library. **Please consider giving a vital gift toward these essential building needs.**

The Galax-Carroll Regional Library Foundation responsibly manages publicly donated resources. A Foundation goal is to grow annual membership to 1000 active members from the City of Galax and the Twin County areas by this time next year. **Donations are used specifically for facility and program improvements at both libraries.**

Any level of giving is helpful to support your library. Your contribution will help us maintain a world-class library system and sustain our libraries that serve everyone in our local communities.
