

I am the **Library**.

I am neither walls nor shelves nor even the books that stand in rows.

I am **the wisdom of the universe**, captured and arranged **for YOU**.

I am an Open Door. Enter...

The Brain of the Future?

As we discover how the brain works, the prospect of changing it, enhancing it, and developing artificial brains is fast becoming fact rather than fiction.

The state of technology

Recent advances in biotechnology have made it possible to replace:

- Damaged limbs with artificial ones that can be controlled by thought.
- Artificial sense organs, such as the bionic eye, already on trial.
- Artificial brain parts such as memory add-ons are not far behind.
